Research grants

We hereby invite applications for grants from the foundations listed below.

**The Hjalmar Gullberg and Greta Thott Scholarship Fund**
(95029)

**Amount:** SEK 500 000

**Purpose:** The amount will be awarded as grants/scholarships to students, primarily third cycle students, engaged in humanities studies at Lund University and who have not completed a PhD, or as grants to junior researchers who have recently obtained their doctoral degree.

Grants/scholarships are primarily awarded to applicants who study literature and/or classical languages, secondly to applicants studying modern European languages and/or philosophy. Students of modern languages must specialise in literature and students of philosophy must specialise in the history of ideas. Grants are awarded to junior researchers in the same subject fields as those listed above. The grant is to cover various expenses for the planned research project. Also the printing of research work can be funded.

The award decision will be made by the award board of the Hjalmar Gullberg and Greta Thott Scholarship Fund.

**Doctor of Theology Henning Wijkmark Foundation**
(93315)

**Amount:** SEK 60 000

**Purpose:** Grant/scholarship for third cycle students of Scandinavian and Comparative Literature at Lund University

The award decision will be made by the award board of the Doctor of Theology Henning Wijkmark Foundation.
The award decision will be made in December 2017 at the latest.

Application
Applications for research grants from the foundation are to be submitted via Lund University’s application system for scholarships. The application form and instructions are available on:

http://www.staff.lu.se/research-and-education/research-support/travel-and-research-grants/other-grants-and-scholarships

The application and all relevant documentation are to be submitted via the application system no later than 26 October 2017.

Payment
Payment to persons employed at Lund University/other higher education institution will be made to the applicant’s department. Where applicable, the application is to include the department’s overhead costs. It is appropriate to include these under the heading ‘other costs’. The costs stated in the application are to exclude VAT.
Applications for external funding must include a cost calculation approved by the head of the department. An approved cost calculation is to include a co-financing commitment to the extent stated in the calculation.

Third cycle students applying for a grant/scholarship to complete their PhD studies from the Hjalmar Gullberg and Greta Thott Scholarship Fund do not need to specify their expenses, as a standard amount is awarded for this purpose. If the application is submitted during employment, but the scholarship is intended to be used after the termination of employment, the funds will not be paid directly, but only on request when the employment has been terminated.

In cases where the statutes of the foundation allow grants to be paid to organisations outside Lund University or to students directly, the payment will be made to a personal bank account or the equivalent. In such cases, the costs stated in the application are to include VAT.

If the funds have not been used for the stated purpose within the timeframe decided, they are to be repaid.

Ex officio

Emma Haverlind
