Travel and research grants at the School of Economics and Management (EHL)

Application

Instructions and an application form are available on Lund University’s scholarship pages:

http://www.staff.lu.se/research-and-education/research-support/travel-and-research-grants/faculty-travel-and-research-grants

The application is to include a brief but precise statement of the purpose of the trip and its significance for the applicant’s research.

- Applications that lack cost specification and an account of the purpose of the trip will not be awarded grants.
- Research students must attach a certificate from their supervisor.
- Active conference participation is to be documented with an invitation or abstract.

The application is to be submitted on 13 February 2018 at the latest.

Criteria for grant allocation

The following criteria, in addition to the specific criteria indicated for each foundation, are applied for the allocation of funds:

- Conference trips with active conference participation are given precedence over purely research-driven travel.
- If funds remain after allocation to prioritised purposes, younger doctoral student researchers are to be given precedence over post-doctoral researchers.
- Applicants who have been awarded SEK 30 000 or more during the past five years are not awarded grants if the funds available are scarce.
- Grants are not awarded for trips which have already been completed at the time of the decision.
- Cost coverage is sought, but grants for a daily allowance are not given if the funds available are scarce.
- Applicants in the first cycle of studies are not awarded grants.

Submitted applications are processed in consultation with the Partnership Foundation and the vice dean for third cycle studies at the School of Economics and Management.
Decision
The decision on the allocation of funds is taken by the board of the School of Economics and Management, unless otherwise indicated for the relevant foundation.

Payment
All grants should be ordered on the order form found in conjunction with the granted application.

Payments to employees of Lund University are made to the applicant’s department. Where applicable, the application should take account of the department’s additional overhead costs. It is appropriate to include these under the heading “other costs”. In such cases, the costs stated in the application are to exclude VAT.

In cases where, according to the statutes of the foundation, grants can also be awarded to activities outside Lund University or to students, and such applications are approved, payment is made to a private bank account or equivalent. In this case, the costs stated in the application are to include VAT.

If the funds have not been used for the purpose for which they were allocated within the timeframe decided, they are to be repaid.

Disposal time and accounting of awarded funds
Awarded funds are to be used within 31 December 2019. The use of awarded funds is to be accounted for with a brief written statement to the EHL faculty office before the end of the disposal period. Funds which are unaccounted for must be reimbursed.
