Travel and research grants at the Faculty of Medicine

Application
Instructions and link to the application form are available on Lund University’s scholarship pages:

http://www.staff.lu.se/research-and-education/research-support/travel-and-research-grants/faculty-travel-and-research-grants

The application is to include a brief but precise statement of the purpose of the trip and its significance for the applicant’s research. Research students are to attach a certificate from their supervisor.

The following principles apply to the allocation of travel grants: travel grants are primarily awarded to researchers who are nearing the end of their research studies or who have just started their careers as post-doctoral researchers and who intend to visit laboratories abroad to learn new technology, establish valuable research contacts or work on joint projects. Applications for travel grants are to be accompanied by a detailed motivation for the study trip as well as a list of published research. Research students are to attach a certificate from their supervisor. Travel grants are usually not awarded for conference trips.

The application is to be submitted on 20 September 2018 at the latest.

Decision
The decision on allocation is taken by the board of the Faculty of Medicine.

Payment
All grants should be ordered on the order form found in conjunction with the granted application.

Payments to employees of Lund University are made to the applicant’s department. Where applicable, the application should take account of the department’s additional overhead costs. It is appropriate to include these under the heading “other costs”. In such cases, the costs stated in the application are to exclude VAT.

In cases where, according to the statutes of the foundation, grants can also be awarded to activities outside Lund University or to students, and such applications are approved, payment is made to a private bank account or equivalent. In this case, the costs stated in the application are to include VAT.
If the funds have not been used for the purpose for which they were allocated within the timeframe decided, they are to be repaid.

Stiftelsen Anders och Birgit Anderssons forskningsfond
(91404)
Purpose: One or more scholarships as grants for expenses of special importance to particularly deserving applicants’ ongoing research projects, primarily focusing on cardiovascular and cancer diseases.
Amount: SEK 150,000

Stiftelsen Lunds stads jubileumsfond
(92050)
Purpose: travel grants for research purposes, given to academic teachers at Lund University.
Amount: SEK 51,500

Stiftelsen Malmö stads jubileumsfond
(92053)
Purpose: travel grants for research purposes, given to academic teachers at Lund University.
Amount: SEK 16,800

Stiftelsen Grace and Philip Sandbloms fond
(92075)
Purpose: Contributions to pay the expenses for invited visiting lecturers/researchers, or for organising symposia, preferably in areas of interest for several faculties.
Amount: SEK 489,200

Stiftelsen Carl Swartz minnesfond
(92084)
Purpose: grants to junior researchers or students for research purposes and grants to academic associations and lecturers for teaching and lecture purposes.
Amount: SEK 157,600

Stiftelsen Olof och Ruth Uppgrens stipendiefond
(93298)
Purpose: scholarship for a young, talented, ambitious man or woman of slender means, who applies him/herself to medical research, especially concerning cancer and/or rheumatoid arthritis. Members of Lund’s nation take precedence.
Amount: SEK 56,400
Stiftelsen Bokelunds medicinska fond
(94508)
Purpose: travel grants for study purposes for academic teachers and students in medical subjects
Amount: SEK 130 000 for academic teachers permanently employed at Lund University
        SEK 64 000 for students who are conducting studies at the University and have done so for at least two years

Stiftelsen Landshövding Per Westlings minnesfond
(95096)
Purpose: travel and research grants for both junior and senior researchers at Lund University
Amount: SEK 175 900

Knut och Alice Wallenbergs stiftelse
(99007)
Purpose: travel grants which aim to further academic exchange on a personal basis for the benefit of Swedish research. Grants are primarily given to young researchers. In exceptional cases, grants are given to cover travel costs for foreign guest researchers.
Amount: SEK 447 200

Dagmar Perssons fond
(99008)
Purpose: grants for research within the field of medicine on rheumatic diseases.
Amount: SEK 18 000

Ex officio

Emma Haverlind
